What Parents are Saying:

“I love the idea behind Autplay of teaching and learning through play and I know that because of this teaching process it becomes engrained in his memory. My son has enriched my perspective on all things, and opened my mind with his endless fascination of asking questions about any and everything”.

-Rachel Forgey (son, age 10 diagnosed with aspergers)

“AutPlay therapy has helped my son in so many ways! I didn't know what to expect when we started, but within just a few weeks, he was talking more. Over time he began to play with toys appropriately, pretend play, and initiate play with me! I love being given the tools to work with my son at home as well, because it allows many opportunities in our daily life to implement what he is learning in AutPlay therapy. Through AutPlay therapy, I am learning to communicate with my son in a way that is fun for him”!

-Ashley Brummet (son, age 6 diagnosed with autism)
